

CALL FOR PAPERS

Special Volume Issue: “Novel Trends in Production Devices and Systems”

Slovak University of Technology in Bratislava. Faculty of Material Sciences and Technology in
Trnava, Slovak Republic

As a result of the scientific collaboration among higher education and research centers of the central European zone, mainly Hungary, Poland, Germany, Czech Republic, Romania, Slovakia among others, the Institute of Production Systems and Applied Mechanics, belonging to the Faculty of Materials Sciences and Technology (MTF) is proud to announce a special volume issue on the novel trends in production devices and systems in cooperation with **trans tech publications inc. and the journal of “Applied Mechanics and Materials”**

The special volume issue will provide a high-level international platform for academicians and practitioners from all over the world, to publish their research results and development activities in the broad **field of Production Devices and Systems**. This way, the scientific committee is pleased to invite prospective authors to submit their original manuscripts to the following e-mail address (ntpds2013@gmail.com) before the deadlines; these should be submitted in **MS WORD and PDF** having **exactly 6 pages** and following the journal format guidelines. Topics of interest for this special volume issue should be related but not only limited to:

- Mechanical and Machine Designs, machining tools
- Trends in production devices and systems
- Production Logistics
- Flexible/intelligent manufacturing systems and cells
- Robotics and automation
- Rapid prototyping
- Trends in applied mechanics and materials
- Maintenance
- New teaching and research approaches
- Other related topics

For this special volume edition, papers will be submitted to a rigorous peer-review process after which all those outstanding accepted papers will be published by **trans tech publications inc. in the “Applied Mechanics and Materials”** journal, ISSN: 1660-9336, ISSN/ISO: Applied Mechanics and Materials. This journal is available online at <http://www.ttp.net/1660-9336.html>

The Journal is **indexed and abstracted** in the following databases: SCOPUS www.scopus.com and Ei Compendex

(CPX) www.ei.org/. Cambridge Scientific Abstracts (CSA) www.csa.com, Chemical Abstracts (CA) www.cas.org, Google and Google Scholar google.com, ISI (ISTP, CPCI, Web of Science) www.isinet.com, Institution of Electrical Engineers (IEE) www.iet.org, etc.

The bound proceeding edition will be ready between 8 to 10 weeks after sending the full manuscripts and needed documentation to the editor of the journal, however, within 4 to 6 weeks after all this information is sent, the online version would be already available.

The authors will receive **free online "author access"** via their email addresses (as it appears in the paper), for which a password will be supplied by the publisher. Via this access authors **will be able to download their papers as PDF and order reprints online.**
