

Please, tell us something about you.

Name and surname: Tatiana Nikolayevna
FEDOSENKO

Where are you from? : Belarus

Name of your University: Francisk Skoryna
Gomel State University

Year of attendance: 7th (Master of physical and mathematical sciences, PhD student)

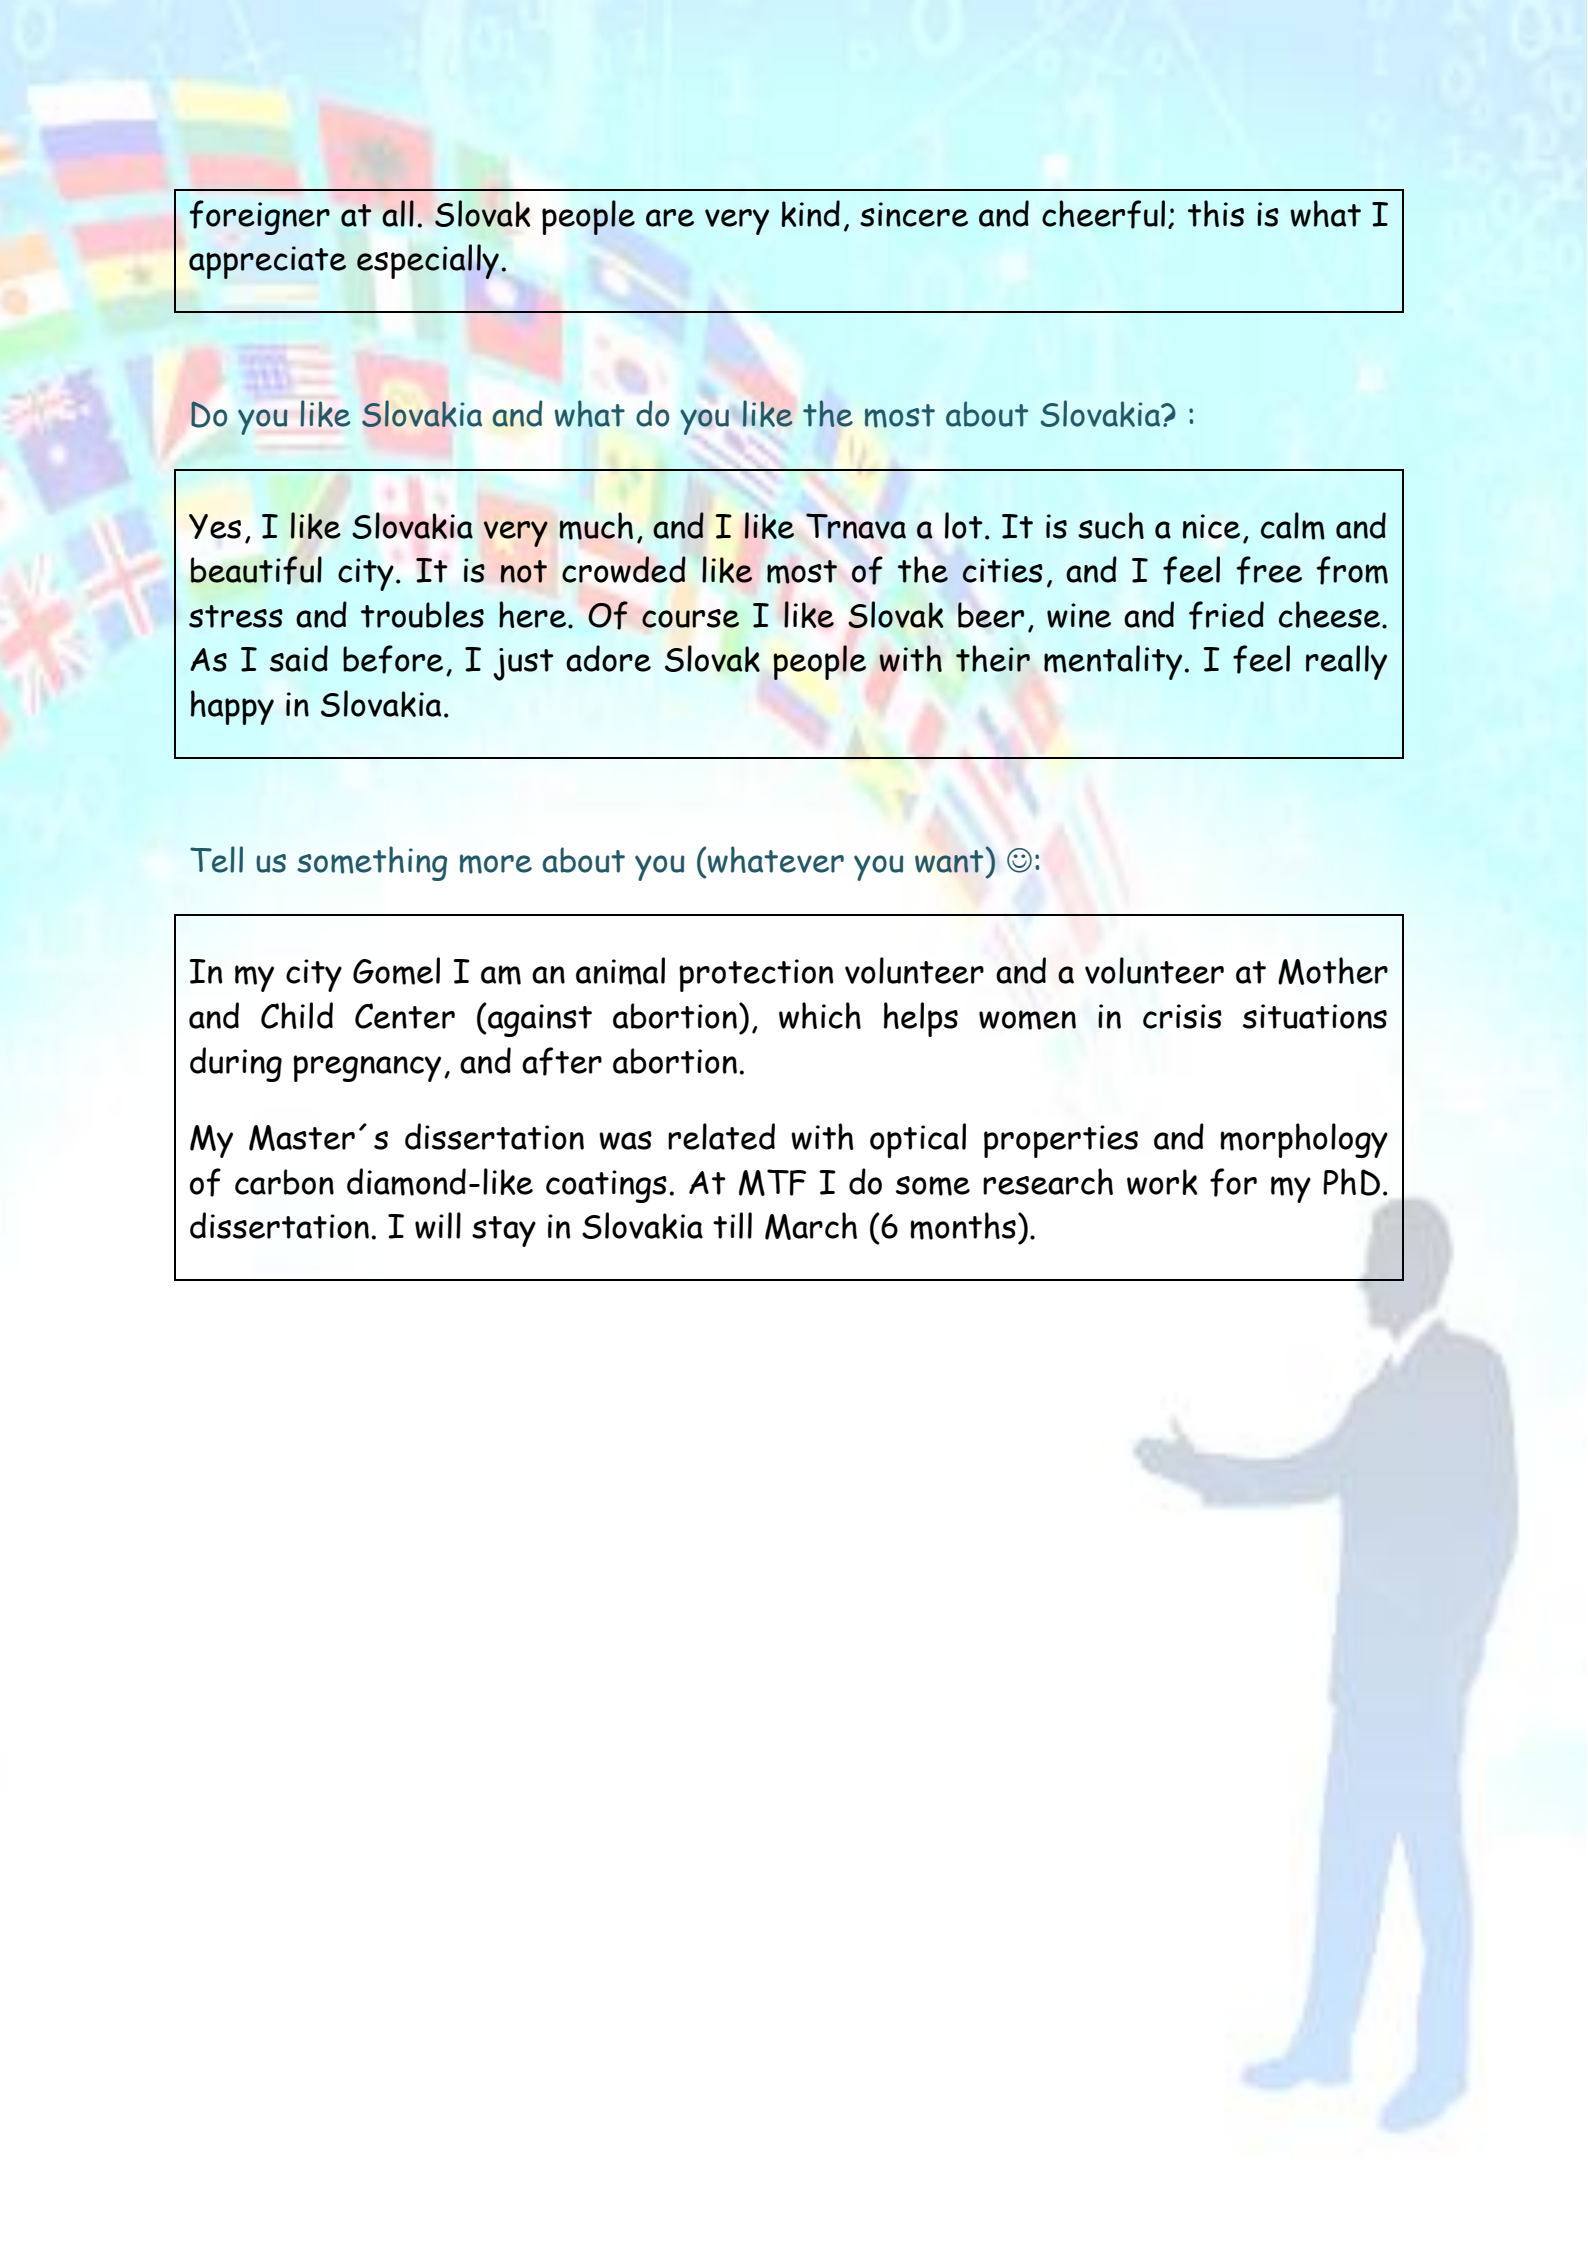

What major are you in? : Physics (Engineer Physicist)

What is your hobby? :

In my free time I play the violin, a bit the piano and the guitar in a Belorussian duet MaTan. I have 4th Qu degree at Kyokushinkai karate, and I like martial arts a lot. I like motorcycles and motorbike riding very much. I also like swimming and ice skating. Sometimes I write music, poems and prose, when I have inspiration. I like to play chess and computer games.

What do you like about Slovak people? ☺:

Slovak people impressed me as soon as I came to Slovakia. As I see my colleagues, they are very kind, helpful and solicitous people. I feel myself safe and calm since my first day in Slovakia. I am sure that these people would never leave me in need and they would not let me face any trouble. I feel myself in a very comfortable, kind and benevolent atmosphere, and I do not feel as a

foreigner at all. Slovak people are very kind, sincere and cheerful; this is what I appreciate especially.

Do you like Slovakia and what do you like the most about Slovakia? :

Yes, I like Slovakia very much, and I like Trnava a lot. It is such a nice, calm and beautiful city. It is not crowded like most of the cities, and I feel free from stress and troubles here. Of course I like Slovak beer, wine and fried cheese. As I said before, I just adore Slovak people with their mentality. I feel really happy in Slovakia.

Tell us something more about you (whatever you want) ☺:

In my city Gomel I am an animal protection volunteer and a volunteer at Mother and Child Center (against abortion), which helps women in crisis situations during pregnancy, and after abortion.

My Master's dissertation was related with optical properties and morphology of carbon diamond-like coatings. At MTF I do some research work for my PhD. dissertation. I will stay in Slovakia till March (6 months).
