

**Minimum criteria for habilitation procedure of Associate  
Professor or inauguration procedure of Professor  
in STU MTF in Trnava**

| Minimum required criteria   | Requirements                  |                       | Reality |
|---|-------------------------------|-----------------------|---------|
|   | Prof.                         | Assoc.<br>Prof.       |         |
| <b>I. Education activity</b>  |                               |                       |         |
| 1) Continual education  | 3 years after<br>Assoc. Prof. | 3 years after<br>PhD. |         |
| 2) University textbook  | 1                             | -                     |         |
| 3) or University workbook   | 2/3                           | 1/2                   |         |
| 4) Amount of defended Master theses                                       | 15                            | 5                     |         |
| <b>II. Scientific and research activity</b>                               |                               |                       |         |
| 1) Articles in A, B or C categories                                       | 40                            | 20                    |         |
| 2) including articles in A category                                       | 6                             | 3                     |         |
| <b>III. Feedback to publication activity</b>                              |                               |                       |         |
| 1) Citations in total   | 30                            | 15                    |         |
| 2) including Citations registered in WOS and SCOPUS                       | 12                            | 6                     |         |
| <b>IV. Scientific school</b>  |                               |                       |         |
| 1) Education of doctoral students (completed/<br>after dissertation exam) | 1/1                           | -                     |         |
| 2) Investigator /principle investigator of a<br>research project          | 3/2                           | 1/0                   |         |

Articles in A, B and C categories for individual research areas and related study fields courses are defined in the document entitled "Criteria for assessing the level of research, development, artistic and other creative activities within the complex accreditation of higher education institutions". (approved by MŠVVŠ on 04/04/2013). Articles in A category of journal publications are specified in the Annex to

Accreditation Commission Resolution No. 73.1.1a titled "Impact Factor of placing articles in category A for individual research areas."

| Complementary criteria   | Required                |                        | Reality |
|--|-------------------------|------------------------|---------|
|  | Prof.                   | Assoc. Prof.           |         |
|  | 10 criteria met at min. | 7 criteria met at min. |         |
| 1) Guarantor or co-guarantor of a study programme or field   | 1                       | -                      |         |
| 2) Membership in the Scientific Board of the faculty/university or research institute                          | 1                       | 1                      |         |
| 3) Lecture mobility abroad   | 2                       | 1                      |         |
| 4) Membership in the national professional organisation  | 2                       | 1                      |         |
