

## Bachelor theses

- Horný, M.:** Radiation Protection in process of handling with ZRAM a IRAO
- Húska, M.:** Possibilities of using magnetic nanocomposites
- Hutta, V.:** The photocatalytic degradation of hazardous substances
- Kipikaša, M.:** Natural and artificial radioactivity
- Koleno, M.:** Occupational safety and health at hot-dip galvanized steel wires
- Krakovský, F.:** Management of hazardous medical waste
- Laubert, M.:** Proposal of Dangerous Goods Transport Routing
- Lednár, T.:** Assessment of health and safety at work on detonation chamber
- Libant, T.:** Evaluation of lighting in selected branches of the travel agency Kartago Tours, a.s.
- Melicher, P.:** Analysis of vibration control materials for industrial applications
- Balogh, L.:** Health and safety when installing lightning conductors on family houses
- Bednářová, D.:** Corrosion protection of materials as a means to reduce risk
- Gabrišová, L.:** Exploitation of nanocomposites in the removal of dyes from water
- Haburajová, Š.:** Risk assessment at work in the service station
- Harajová, H.:** Principles of work safety in the repair and maintenance during furniture production
- Hollóši, R.:** Assessment of agro pallet fire risks
- Gardian, J.:** Combustion heat of thermal insulation materials
- Horvát, D.:** The safety assessment of photovoltaic systems and instalations
- Zsibritová, A.:** Determine the Risks of Smokers' Requisites in order to find out the Results of Fire
- Štefánik, M.:** Application of sorption materials in liquidation of oil accidents
- Štefanovičová, M.:** Reviewing of laundry in term of safety and impacts on the environment
- Šúreková, D.:** Practices of safe working at working in workshop
- Tibenská, M.:** The effect of thermal modification to time to ignition of wood
- Václavík, J.:** Risk at Sampling of Dust fallout
- Vlčková, A.:** Risks involved in monitoring the impact of landfills on the environment
- Petráš, M.:** The assessment of fire risk sunflower pellets
- Porubánová, P.:** Biologically active substances in living and working enviroment
- Semelbauerová, R.:** The heightening of work safety in specific laboratory exercises
- Schmidtová, Ž.:** Rescuing people from caving falls and debris
- Slezáková, D.:** Waste water from the textile dyeing
- Vyskoč, M.:** Pharmaceuticals in the environment and workplace
- Vyskočová, G.:** Chemical safety assessment fruit spirits
- Mihalovič, M.:** Pesticides in the environment and working surroundings
- Nádaský, M.:** Safetyduring a solving of failurestates in a transformer station Křižovany
- Očkovská, P.:** Voluntary and professional rescue services in Slovak republic
- Orlická, N.:** Assessment of noise stress on the selected department of safety and health at work
