WHO WE ARE?

We are **QA** company focused on providing services in the field of **Software Testing** and **Consulting**.

Our team is experienced with everything from small and agile projects to huge multi-country transformations. We never stop educating ourselves, strongly investing in skills development as training courses, certification, workshops for our own staff. We also provide **ISTQB®** accredited, other specialised training courses and online workshops in the field of testing.

We perceive testing as an integral part of quality assurance, and therefore we focused not only on delivering tests, but also on training real QA specialists who can provide clients with the overall quality of services offered. We support employees in their development and that is why we offer other than standard benefits that people are used to. The benefit for KRONE employees is freedom in the form of an individual **benefit budget** of 3,100€/year.

We unite the testing community as the organizer of one of the largest testing conferences in Central Europe - **TESTING UNITED:** https://www.testingunited.com with unique delegate experience aimed at all levels of testers, test leads, test managers, test consultants and IT employees that come in daily contact with testing teams periodically rotating the venue between Vienna, Prague and Bratislava.

At the same time, we are developing a unique platform for communication in the field of AI and VR: https://www.eevree.com/.

BRATISLAVA . VIENNA . PRAGUE . 2021
