

Theses UIBE – 2019

- [Jankovič, Lukáš](#) Safety and environmental labelling in automotive industry
- [Hudcovská, Bronislava](#) Occupational health and safety assessment at Lear Corporation
- [Krajčovič, Matúš](#) Heterogeneous photocatalytic degradation of organic substances
- [Škvarka, Marián](#) Assessment of fire hazard of settled and dispersed dust in the production of low density polyethylene
- [Mončeková, Klaudia](#) The use of hazardous waste in the removal of methylene blue using the Fenton reaction
- [Knap, Michal](#) Risk assessment of selected workplace at IRON MOUNTAIN SLOVAKIA, s.r.o.
- [Vargová, Lujza](#) Study of antibiotic capture on microplastics
- [Černeková, Natália](#) Possibilities of using pyrochars for sorption of selected phosphorus compounds
- [Rajtarová, Veronika](#) Hydrogen production using aluminum and aluminum alloys
- [Godovčin, Peter](#) Study of the sorption properties of materials used to capture organic matter
- [Radoš, Pavol](#) Assessment of employees evacuation from the selected company
- [Mílkvy, René](#) Safety assessment of corrective technological measures in view of increasing the safety of the working and production environment of the powder paintshop
- [Lipták, Peter](#) Sorption of hazardous substances on activated sorbents
- [Antalová, Natália](#) Selected aspects of the environmental and safety management in a selected company
- [Mráziková, Renata](#) Gloves to protect hands in a variety of work activities
- [Široký, Radovan](#) Risk assessment of selected equipment
- [Režná, Lenka](#) Removal of colorants from water by AOP methods
- [Pilka, Adrián](#) Safety in a work environment by using hydraulic recovery technique
- [Hlavatovičová, Adriána](#) Assessing the effectiveness of parabens removing from water using AOP methods
- [Michálek, Juraj](#) Aging of selected rubber products
- [Slezáková, Ivana](#) Analysis of the causes of occupational injury in PCA Slovakia between 2016 and 2018

[Prítrský, Martin](#) Design and establishment of temporary controlled zone for the repair of the distribution wheels of the main circulating pumps

[Kozák, Tomáš](#) Fire hazard of materials with a tendency to spread fire by smoldering

[Dovičicová, Zuzana](#) Current trends in the assessment of the fire hazard of liquids

[Černý, Mário](#) Safety and environmental labelling of the accessories in automotive vehicles

[Jadrná, Monika](#) Assessment of ergonomic risks on selected machinery

[Kijovská, Mária](#) Analysis of risks from the point of view of safety and health at work in weaponry warehouse

[Masár, Viktor](#) Effect of Fireport system on time to leave the fire station

[Klasová, Petra](#) Assessment of the noise load of employees in engineering operations

[Turzová, Ivana](#) Fire risk of combustible liquids

[Ščasný, Peter](#) Assessing the level of safety in an explosive working environment at Saneca Pharmaceuticals, a.s. using selected risk analysis methods

[Bíliková, Veronika](#) Safety of working with high lift truck

[Kostický, Šimon](#) Fire risk of electrical cables

[Kutláková, Renáta](#) The elaboration of safe work procedure in the Lear Corporation company for the chosen working station

[Kobelárová, Petra](#) Waste management in Plastic Omnium Intelligent Exterior System s.r.o.

[Vávrová, Lívia](#) Digitalization of a noise emission in a selected plant

[Položániová, Viktória](#) Evaluation of the impact of emissions from Slovak Power Plants, a.s. Mochove to the environment

[Fehér, László](#) Measurement of fire characteristics of coal in dependence of particle size

[Jančík, Juraj](#) Risk assessment of selected workplace at Schaeffler Slovakia, spol. s r.o.

[Kvorková, Veronika](#) Possibilities of using pyrocharss for the nitrogen containing substances sorption

[Jeluš, Matej](#) Risk analysis for the construction of a reservoir in the Atomic Power Plant area

[Petráš, Ján](#) Assessment of good status of surface water in selected locality

[Nemec, Matej](#) Revisions of selected specified electrical technical devices

[Mrázik, Tibor](#) Safety of children's playground equipment

[Majáková, Ľudmila](#) Safe loading of fire lighters for heaters

[Haburajová, Štefánia](#) Fire hazard analysis in the production factory

[Čáp, Matej](#) Safety and environmental management of the products in a selected products group

[Hanuláková, Laura](#) Safety and environmental management of the products in a selected products group

[Bajan, Ján](#) Measurement of explosion characteristics of selected dispersed dust

[Kovács, František](#) Risk analysis in selected company

[Stojkovič, Martin](#) Assessment of fire protection in selected company

[Hačunda, Dominik](#) Assessment of occupational safety in construction with focus on work in heights

[Botka, Maroš](#) Analysis of traffic safety on ŽSR line in terms of occurrence of accidents

[Kocán, Miroslav](#) Elimination of selected radioactive wastes

[Ondriš, Filip](#) Establishment of an OSH plan for a selected workplace

[Michalec, Roman](#) Measurement of fire characteristics of selected dust in dependence of particle size

[Prachová, Michaela](#) Risk factors of selected technological operations of fire-fighting door production

[Mikulová, Monika](#) Environmental and safety labeling of products and production in the context of sustainable production
